Re: Bond Project List
Date: 10/16/2024

Members of the Board of Education,

Future Project Summary:

Our district has compiled a comprehensive list of capital project initiatives, informed by internal discussions with building leadership teams and aligned with the broader goals of our master plan. This list represents a collaborative effort to assess the evolving needs of our facilities, infrastructure, and resources to better serve our students, staff, and community.

Please note that none of these project items have been prioritized at this stage. The primary objective of this exercise was to identify a wide range of potential opportunities for future development, reflecting both immediate needs and long-term growth.

The next steps will involve further evaluation and refinement of these initiatives, with input from both the board and stakeholders. A community forum, scheduled for October 22nd, will help further the conversation and consideration of project priority.

Based on your feedback from last month's meeting, we have updated the project list to include:

- Track & Field Enhancements:
- Middle School Track Surface:
- Outdoor Sitting Area Near the Cafeteria:

We look forward to continued collaboration with all stakeholders as we move towards a more strategic approach to capital project planning and implementation.
